# Lab 01 - Manage Azure Active

- ## Lab scenario

  In order to allow Contoso users to authenticate by using Azure AD, y
  groups should be updated automatically based on the user job titles.
  account limited permissions to resources in the Contoso Azure subs

  - Task 1: Create and configure Azure AD users
  - Task 2: Create Azure AD groups with assigned and dynamic membe
  - Task 3: Create an Azure Active Directory (AD) tenant
  - Task 4: Manage Azure AD guest users
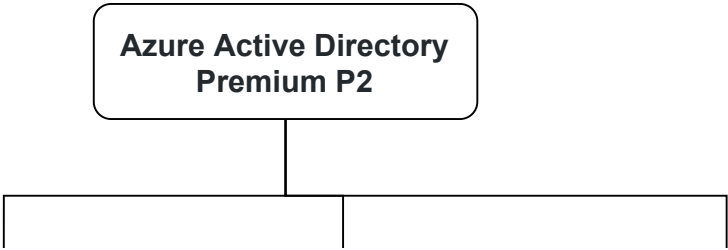

Task 1: Create and configure Azure AD users

Azure AD

Create and configure
Azure AD users

.
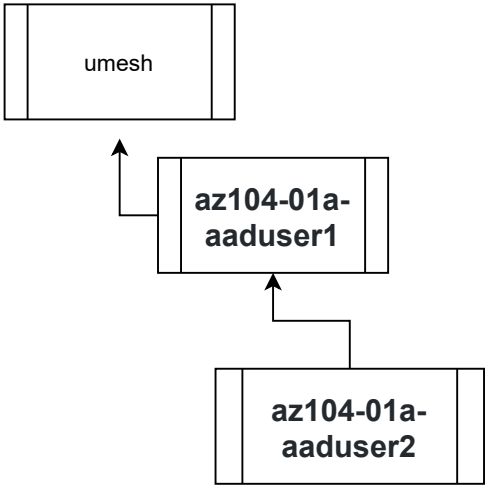

Task 2: Create Azure AD groups with assigned and dynamic membership
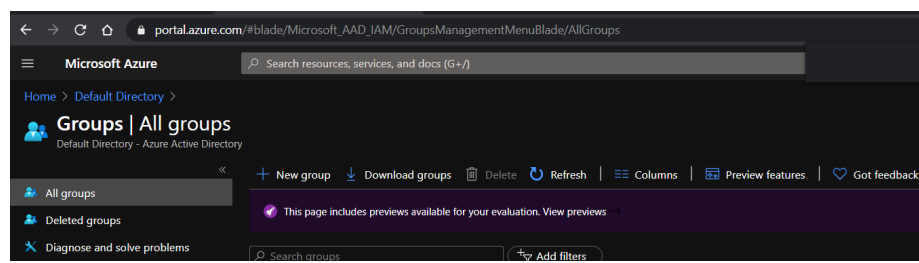

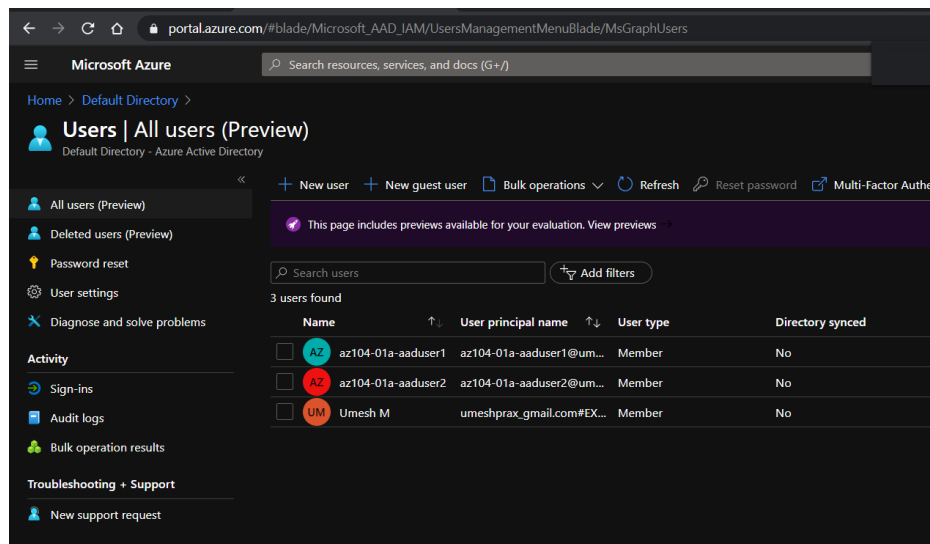

### Azure AD Groups

Create Azure AD groups
with assigned and

Directory Identities

ou have been tasked with provisioning users and group accounts. Membership of the
You also need to create a test Azure AD tenant with a test user account and grant that
cription.
